Summary of Progress this Report
Learned the foundation function of the Android Studio, Made a working plan for this semester

Pending Issues
- Made a final decision on the choice of tablet
- Started work on the coding portion
- Watch the tutorial to familiarize the team with Android Studio

Plans for Upcoming Reporting Period
Start the coding part as soon as possible
learn and watch the Android Studio tutorial online

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Shengliang Liu	Get familiar with the Android Studio and understand how it works on our tablet.	5	5
Guantong Zhou	Got familiar with the functions of Android Studio and figured out how to setup this software on our own	5	5
Han Liao	Met with advisor and asked for the request for funding of the tablet. Start with the framework of the coding part.	5	5
Wenrui Wu	Searched online for suitable tablets and watched youtube video about functions of Android Studio . Downloaded the software from website and learned it with team members	5	5
Yixuan Wang	We meet the professor and he told us we	5	5

	can use tablet and camera in our project. We searched the long size tablet on the website as cheap as possible. Then we download the Andriod studio to learn how to write an android app by using java.		
Yao-Wei Lee	**Designed the team website**	**5**	**5**
